-- The MAILING DATE of this communication appears on the cover sheet with the correspondence address --  
**Period for Reply**

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 1 MONTH(S) OR THIRTY (30) DAYS, WHICHEVER IS LONGER, FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

**Status**

- 1) ☒ Responsive to communication(s) filed on 16 June 2006.
- 2a) ☐ This action is **FINAL**. 2b) ☐ This action is non-final.
- 3) ☐ Since this application is in condition for allowance except for formal matters, prosecution as to the merits is closed in accordance with the practice under *Ex parte Quayle*, 1935 C.D. 11, 453 O.G. 213.

## **DETAILED ACTION**

### ***Election/Restrictions***

1. Restriction is required under 35 U.S.C. 121 and 372.

This application contains the following inventions or groups of inventions which are not so linked as to form a single general inventive concept under PCT Rule 13.1.

In accordance with 37 CFR 1.499, applicant is required, in reply to this action, to elect a single invention to which the claims must be restricted.

Group I, claim(s) 11 – 17, drawn to a device for assembling a shield.

Group II, claim(s) 18 - 19, drawn to a method of assembling a shield.

Group III, claim(s) 20, drawn to a fuel tank for motor vehicles.

2. The inventions listed as Groups I, II, and III do not relate to a single general inventive concept under PCT Rule 13.1 because, under PCT Rule 13.2, they lack the same or corresponding special technical features for the following reasons: the common technical features in all groups are a device for assembling a shield containing at least one hole onto a tank, comprising: a base configured to be attached to a wall of the tank; a head used for fixing the shield, the head including a groove whose upper and lower lateral surfaces intersect an axis of the device substantially normal to the wall of the tank, an edge of the hole in the shield being slipped into the groove; and a non-return stub that emerges from an outer surface of the device and prevents detachment of the shield from the tank. These elements cannot be a special technical feature under PCT Rule 13.2 because the elements are shown in the prior art. Lodi (U.S. Patent Number

6,142,435) teaches a device capable of assembling a shield containing at least one hole onto a tank, comprising: a base capable of being attached to a wall of the tank (figure 5, element 16; column 4, lines 52 – 56); a head, capable of being fixed to the shield (figure 7, elements 26 and 22; column 5, lines 6 - 14), the head including a groove whose upper and lower lateral surfaces capable of intersecting an axis of the device substantially normal to the wall of the tank, an edge of the hole in the shield being slipped into the groove (figure 7, elements 26 and upper and lower surfaces of 22; column 5, lines 6 – 14); a non-return stub that emerges from an outer surface of the device and is capable of preventing detachment of the shield from the tank (figure 5, elements 17 - 21; column 4, line 52 - column 5, line 5).

3. A telephone call was made to Richard Treanor on November 19, 2009 to request an oral election to the above restriction requirement, but did not result in an election being made.

Applicant is advised that the reply to this requirement to be complete must include (i) an election of a species or invention to be examined even though the requirement may be traversed (37 CFR 1.143) and (ii) identification of the claims encompassing the elected invention.

The election of an invention or species may be made with or without traverse. To preserve a right to petition, the election must be made with traverse. If the reply does not distinctly and specifically point out supposed errors in the restriction requirement, the election shall be treated as an election without traverse.

Any inquiry concerning this communication or earlier communications from the examiner should be directed to CHRISTOPHER BESLER whose telephone number is (571)270-5331. The examiner can normally be reached on 7:30 - 5:00, Monday - Friday.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Bryant David can be reached on (571) 272-4520. The fax phone number for the organization where this application or proceeding is assigned is 571-273-8300.
